

b.safe Air Valve Bohlender

[Product in eShop](#)[Home](#) / [Brands](#) / [b.safe](#) / b.safe Air Valve Bohlender

Product Data

Valve body made of PP with connection (thread UNF 1/4" 28G) suitable for b.safe Caps. Lid with aeration opening and Luerlock connector, integrated non-return valve with upstream porous PTFE membrane (1 m), including clip-on service life indicator.

Applications

For extraction of eluents. The b.safe Air Valve is especially adapted to the flow rate in HPLC. The integrated non-return valve avoids evaporation of solvents and lets flow ambient air into the bottle in case of vacuum. The upstream porous PTFE membrane restrains pollutant particles and other contaminations from outside. The 6 months service life of the Air Valve can be easily monitored through either activating the display on the service life indicator and exchanging the valve in case of completely red colouring or documentation of the exchange date by hand and clip on the service life indicator at the valve.

Item No.	Service life	Price
94.M505.01	6 months	CHF 30.25 CHF 44.85
94.M505.02	6 months	CHF 133.60 CHF 198.00
94.M505.05	6 months	CHF 575.00 CHF 855.00
94.M505.10	6 months	CHF 1'262.65

* The prices are non-binding and are to be understood as selling prices in Swiss francs without value added tax (VAT), as well as all other fees, charges and taxes. The prices displayed in the eShop may differ from the PDF file due to regular updates.

** Please note that when ordering chemicals and detergents, transport and packaging costs for hazardous goods as well as legally prescribed fees are charged. These will be shown in detail on the order confirmation, which you will receive in addition to the confirmation of receipt.
