Product Data

Made of acetal polymer, moulded from a special high-density polymer, these cassettes keep specimens safely submerged in liquid and are totally resistant to the chemical action of histological solvents. The efficient flow-through slots maximise fluid exchange and ensure proper drainage. The one piece integral lid eliminates the need for separate steel lids. Lids can be opened and closed as often as necessary and they always relock securely without danger of specimen loss. Large labelling areas are located on two sides of the cassettes. Anterior writing area is at a 35° angle.

- Available in non cytotoxic, non metallic colours
- The snaplatch and hinge-lock design prevents early separation of base and lid and allows for one handed operation

Item No.	colour	Price
10.9505.02	white	CHF 214.80
10.9505.03	pink	CHF 214.80
10.9505.04	green	CHF 214.80
10.9505.05	yellow	CHF 214.80
10.9505.06	blue	CHF 214.80
10.9505.07	peach	CHF 214.80
10.9505.08	beige	CHF 214.80
10.9505.09	gray	CHF 214.80
10.9505.10	mauve	CHF 214.80
10.9505.11	orange	CHF 214.80
10.9505.12	aqua	CHF 214.80

* The prices are non-binding and are to be understood as selling prices in Swiss francs without value added tax (VAT), as well as all other fees, charges and taxes. The prices displayed in the eShop may differ from the PDF file due to regular updates.

** Please note that when ordering chemicals and detergents, transport and packaging costs for hazardous goods as well as legally prescribed fees are charged. These will be shown in detail on the order confirmation, which you will receive in addition to the confirmation of receipt.

*** Further information such as technical information and safety data sheets can be found online in our eShop.
