### Product Data

**Prevents the formation of foam**  
**Even at low temperatures a low dosage is sufficient.**  
**Based on emulsified silicone oils**

#### Fields of application

- Prevents foam formation in laboratory glassware washers in medical laboratories (A, serology), and laboratories in the food and cosmetics industry, as well as during machine processing of operating tables.
- Also suitable for reducing foam formation in professional dishwashers.

#### Properties

- Prevents the development of foam when processing parts containing foam residues such as surfactants, proteins or soaps.
- Used as an additive to all neodisher products in pre-wash and main wash.
- Based on emulsifying silicone oils, this product has a strong defoaming action even at low temperatures.
