### Product Data

Made of green PE white, has all the suitable properties of conventional polyethylene and can be completely recycled but is manufactured from renewable raw materials, as a result of the long, ergonomically-shaped, stable handle and a sharp blade, it is possible to even penetrate directly into containers such as paper or plastic sacks. The sample spatula is ideal for sampling powders, granulates and pastes

- Individually packaged and sterilised by gamma rays
- Production and packaging according to clean room class 7
- With EU foodstuffs and FDA approval
