[Home](#) / [Anion&Cation](#) / ICP Multi Element Standards Reagecon

## Données du produit

Reagecon have been manufacturing Inorganic Standards, Controls and Calibrators for Spectroscopy for almost two decades. During that time, the company has established itself as the most reliable primary producer of top quality standards. The products are manufactured, tested and stabilised to such a high level, that they can be used on all of the instruments. Reagecon's Multi Element Standards for ICP, ICP-MS are manufactured from ultra-pure metals or salts. Raw materials used for these standards are assayed by titration and ICP-MS prior to manufacture. Separate CRM's are used to control or calibrate the titration and ICP-MS respectively. Products are manufactured gravimetrically using the mass balance approach: 100% less the sum of all impurities (w/w).

No. d'article	Contenu	Emballage	Prix
500.ICP-10-1000-100	100 millilitre	HDPE Triple-leached	CHF 669.56
500.ICP-CA-12C1	100 millilitre	HDPE Triple-leached	CHF 654.24
500.ICP-HR-195	500 millilitre	HDPE Triple-leached	CHF 905.80
