

## Hydranal Smart Chemicals for Mettler Toledo Titrators

Our Hydranal™ bottles are embedded with an RFID chip, visible in the form of a new label, that captures essential information for every titration, including article code, product name, lot number, shelf life and numeric concentration.

Hydranal Volumetric Titrants have been proving their capabilities in volumetric titration for more than 35 years in a wide range of applications, and across the diverse fields of research and industry.

Now, you can switch to RFID-enabled titrants to shorten your set-up time and prevent manual errors in data transfer and recording.

Available on our best-selling Hydranal Volumetric Titrants, the RFID label is currently compatible with Mettler Toledo's Karl Fischer titrators. Our Smart Chemicals can be used with Mettler Toledo's Karl Fischer Compact and Excellence line titrators (when upgraded with external RFID reader).

---

### Secure Data Transfer

Ensure correct and complete reagent data every time with traceable information flow.

---

### Efficient System Setup

Reduce system set-up time with automated reagent data transfer.

---

## Hydranal Smart Chemicals for Mettler Toledo – Coming soon

Product Name	Product Number	Description	Packaging / Price	
HYDRANAL – Composite 2	34806-1L-SC	One-component reagent, titer ~2 mg/mL	1 L	176.55
HYDRANAL – Composite 5	34805-1L-SC	One-component reagent, titer ~5 mg/mL	1 L	175.45
HYDRANAL – Composite 5K	34816-1L-SC	One-component reagent for titration of ketones and aldehydes, titer ~5 mg/mL	1 L	206.25
HYDRANAL – Titrant 5	34801-1L-SC	Two-component reagent, titer ~5 mg/mL	1 L	100.00

### How To Connect Bottle to Unit

By holding the bottle with the new label against the RFID reader of your Mettler Toledo instrument (see process diagram), the data are automatically transferred to your titrator.

1  
Connect the reagent to the equipment.

2  
Read SmartLabel data. Hold the reader next to where the SmartLabel is placed, underneath the original Hydranal stamp.

3  
Sync data into the system.

4  
Start the analysis. Start your test with just one click.
